VOL. XXXIV No. 40 WAINWRIGHT, ALBERTA, WEDNESDAY, AUGUST 5th, 1942 Price \$2.00 Per Year In Advance

SCHOOL DIVISION No.32 ADOPTS NEW SALARIES

Minutes of Meeting of the Board of Trustees of the Wainwright School Division No. 32 held at the office of the Secretary, July 16th last.

Trustees present: — J. C. McLean, T. Sanders, F. E. Dixon and M. J. Nicholson.

Moved by Dixon—That the minutes of June 26th Meeting be adopted as submitted.—Carried.

Moved by Sanders—That the letter from the Department of Education dated June 26th be tabled until the September Meeting.—Carried.

Moved by Nicholson—That the letter from the Canadian Geographical Society dated July 10th be tabled until the August Meeting.—Carried.

Moved by McLean—That the Secretary write Mrs. Armstrong, Trust, asking the price and condition of the piano offered for sale.—Carried.

Moved by Sanders—That the Board consider the question of the basement room in Irma High School of primary importance and that full consideration be given the matter in the 1943 budget.—Carried.

Moved by Sanders—That the office be authorized to have the necessary repairs made to the warehouse.—Carried.

Moved by McLean—That Mr. Fisher's offer to move House Lake school to Ribstone for \$300.00 plus any charges for raising wires enroute be accepted.—Carried.

Moved by Dixon—That the matter of having the new basement at Ribstone School dug and cemented, and of having the building from House Lake S.D. repaired after being set on the foundation, be left in the hands of Mr. Nicholson.—Carried.

Moved by Dixon—That the barn and toilet at House Lake School be sold to the highest bidder.—Carried.

Moved by Sanders—That the following tenders for the 1942-3 supply of coal be accepted:

For Divisions 1 and 2 — Tender from F. C. Wise, Irma, dated July 14th.

For Divisions 3 and 5 — Tender from Sheldon Coal Company, Edmonton, dated July 3rd (Black Diamond double screened lump).

For Division 4 — Tender from Bob McKay Lumber, Edmonton, dated July 14th (Black Diamond double screened lump).

and that the following tenders for Coal Hauling be accepted:

For Division 3 — Mr. G. S. Valieu tender dated July 11th.

For Division 5 — Miles Transport, tender dated July 12th.

For Division 5 — Mr. G. W. White tender dated July 13th.—Carried.

Moved by Sanders—That accounts payable statement No. 9, in the amount of \$1,021.42, be approved for payment and the statement recorded in the minutes.—Carried.

Moved by Dixon—That the delegates of the meeting of branch No. 3-N.E. of the A.S.T.A., held at Viking July 6th be accepted and on the strength of the reports that the Wainwright division join the branch and

the membership fee of \$20.00 be paid.—Carried.

Mr. H. E. Spencer at this time attended the Meeting and took the Chair.

Moved by Dixon—That list of additional accounts No. 9a, in the amount of \$783.27, be approved for payment and the list recorded in the minutes.—Carried.

Moved by McLean—That the Salary Schedule, drawn up at the Meeting of Branch No. 3-N.E. of the A.S.T.A., held at Viking, July 6th, be adopted, and that all salary schedules adopted in the past be hereby cancelled.—Carried.

Moved by Sanders—That the Secretary be allowed to take his holidays during the first week of July and the first week of August, if it is convenient to him.—Carried.

Moved by McLean—That the Meeting adjourn, date of next meeting to be August 20th at 8:00 A.M.—Carried.

Attest: Secretary

Doris Dunlop

This vivid and vivacious lady lives in Halifax, Nova Scotia, and is the CBC coast-to-coast network Saturday at 5:30 p.m. MDT. The programme is heard over station CBK Watrous. She has been heard over the air from Edmonton, Ottawa and Toronto and is a well-known concert performer in Charlottetown, Sydney and Halifax. Her hobbies are gardening, interior decorating and collecting modern crystal.

Harvest Help Scarce and Harvesting Late

With favorable weather prevailing in the Prairie Provinces, all crops have made steady progress and favorable prospects have been generally maintained. Rain would be beneficial in southwestern Saskatchewan, southeastern Alberta and the Peace River country, but elsewhere dry weather is required to hasten maturity of all grains, which are about two weeks later than normal. Wheat is heavy, nearly all headed and commencing to fall. Barley and oats are a good stand. Harvesting of fall rye has commenced. The hay crop is heavy and pastures are good. Damage to date from all sources is slight but swallows are active in Alberta.

Prospects continue favourable in Alberta. Moisture is adequate except in southeastern areas and parts of the Peace River district. Warm dry weather is now required. Fall damage is light. Heavy crops are lodging and swallows are active, which may reduce yields. Fodder crops and coarse grains are excellent. Harvesting will be two weeks later than average and labour will be scarce.

Saskatchewan — Crops continue to make good progress, but are later than normal. Moisture generally is satisfactory, although early rains are required in the southwest to prevent deterioration. Much lodged grain is making a good recovery, suffering from early frost has improved but has sustained some damage from rust. Wheat, oats and barley are heavy and wheat is developing large heads. Damage from all sources is small.

Manitoba — All grains, although somewhat backward, are in good condition. More rain would be welcome in a few districts but crops are not suffering. Wheat is a heavy stand and filling well. Coarse grains are promising. Leaf rust has made its appearance, but damage to date is confined to flax in isolated areas. Loss from other causes is small. Sugar beets are progressing favourably.

Permits Cut Off For Farm Employees

After August 15, no permits will be issued farmers or farm employees skilled in agriculture to transfer to other occupations, officials of the Unemployment Insurance Commission announced Friday.

Under the regulations persons desiring to employ men engaged in essential occupations such as agriculture must obtain permits to do so and the persons engaged in the occupations must receive permission to transfer their services.

The barring of permits after August 15 will tend to prevent further depletion of available farm labor urgently required for the harvesting of Alberta's bumper crop.

Motor Accidents Are Cut in Half

Reduction of car speeds and less driving have been factors in cutting motor car accidents in Alberta by about 60 per cent. This information has been secured by Voice of Motorism from the provincial secretary's department. The deaths resulting from car accidents in April, May and June of 1942 were ten. In the same months of 1941 they were 21.

The 40-mile limit has had much to do with this reduction of hazard and accident.

In the case of this year, scarcely an accident which occurred was regarded as due to reckless driving. Other causes were involved.

The R.C.M.P. has been checking on all who exceed the 40-mile limit. Bicycle riding on the highways may be the next phase of traffic to be checked up more rigidly.

Moisture Conditions Continue Excellent

Precipitation report No. 13, of the Searle Grain Co. shows that the total moisture condition for the three Prairie Provinces weighted and averaged for both stubble and summer fallow land shows 106 p.c. of normal, as compared with 108 p.c. last week and 84 p.c. at this time a year ago.

On crops seeded on stubble land, including the reserves from last fall and this current season's precipitation, the condition is 113 p.c. of normal, as compared with 120 p.c. last week and 83 a year ago. On crops on summerfallow and which have reserves of an extra year's rainfall, the condition is 101 p.c. of normal, compared with 101 p.c. last week and 85 p.c. at this time a year ago.

For Alberta the total moisture condition is 104 p.c., as compared with 104 p.c. last week and 79 p.c. a year ago.

For Saskatchewan the total moisture condition is 103 p.c., as compared with 103 p.c. last week and 81 p.c. a year ago.

For Manitoba the total moisture condition is 126 p.c., as compared with 124 last week and 119 p.c. a year ago.

The general moisture condition continues excellent over the three Prairie Provinces. Rainfall during the past week was limited to moderate showers with the exception of little or no rain in Eastern Saskatchewan, general heavy rainfall in southern Alberta, and local heavy showers at scattered points.

Save the water in which vegetables are cooked as an appetizer mixed with tomato juice, in soup or gravies. It contains much of the vegetable's mineral and vitamins, particularly the B family and C.

May Free Pupils For Farm Work

Edmonton. — Releasing of rural high school boys from classrooms for a portion of September, to assist in the harvesting of Alberta's crop is being considered by the provincial government.

This announcement was made following a survey of labor conditions in the province undertaken by the extension branch of the department of agriculture.

In its report, the department states "The survey shows that farm labor is already a problem in many districts of Alberta and is likely to become more severe as the season advances and haying and harvesting create heavier demands for help."

"Greater co-operation between individual farmers, doubling up on odd lots and similar ideas are put forward for the harvest period in August and among other recommendations is that of releasing rural high school boys for part of the month of September."

Permit Applications Crowd Trans't Office

About 2,000 permits have been given to farmers to carry passengers in their trucks in the course of necessary transactions of farm business the Services Officer, Truck Control, P.T.B. reports. But as many requests have been handed out. Ball games in the country or country conventions, when other transportation by bus or rail is available, are not considered. The Board gives fair attention to applications, but feels that public response should meet the needs of conserving wear and tear on gas and materials.

VET'S GUARD OF CANADA TO SERVE OVER EMPIRE

Once again Canada is calling more old comrades back to the colors it is revealed with the recent announcement from Colonel H. R. Alley, Officer Commanding the Veterans Guard of Canada, that 2500 men, not over the age of 55 years are required immediately.

Major J. H. Gainer, M.C., District Recruiting Officer of Military Division No. 13, has announced that commencing on the morning of August 10th, 1942, four mobile recruiting units of the Veterans Guard of Canada will set out in four different directions and will cover practically every town and village in the province of Alberta, seeking recruits for the Veterans Guard of Canada.

The officers in charge of these itineraries in the various districts will be as follows: Major F. J. Jenkins, adjutant of the 14th (Res.) Army Tank Battalion, (Calgary Regiment), will cover the territory south of Calgary to include Macleod, Pincher Creek, Milk River, Lethbridge, Medicine Hat, Empress, Brooks, Bassano and all the districts surrounding, as far north as Red Deer and Cardston, and west to Rocky Mountain House.

Lt. H. Sawley of No. 30 Coy., Veterans Guard of Canada will cover the Drumheller, Hanna, Provost, Hardisty, Camrose and Stettler districts.

Lt. G. E. Blais of the 2nd Bn. Edmonton Regiment will cover the Townfield, Wainwright, Vegreville, Bonnyville, St. Paul, Rimbey and Wainwright districts, and will be at the Armouries in the Post Office Building, Wainwright as shown by the advt. in this issue.

Major W. Storm, No. 27 Coy., Veterans Guard of Canada will cover the Westlock and Athabasca districts, and the whole of the Peace River Block of Alberta, and the British Columbia section.

Complete itineraries of the hours and dates that the recruiting officers will be in each centre are published in this issue and radio stations will carry announcements of the dates to be visited each day. All those interested are requested to contact their local civilian recruiting officials as to the place to contact the recruiting officers in their various towns and districts.

Special representation is being made to the Department of National Defence at Ottawa to have the age limit of veterans eligible to join the Veterans Guard raised from fifty to fifty-five years. Veterans who are interested in enlisting and are advised that special arrangements for "harvest leave" have been completed and that arrangements for same can be made if so desired.

The Veterans Guard of Canada companies are called upon for service in this war in many parts of the Empire. Three new units of the Veterans Guard have recently arrived overseas in various parts of the Empire, in addition to those already despatched, with men chosen proportionately from all the units of the Guard in Canada. New duties have arisen in Canada necessitating the formation of six new companies and enlistment in the Veterans Guard of Canada is for service anywhere in the world and not for the purpose of "home defence" only, as is generally believed by Veterans. Every trade and occupation are required, with duties and training planned in the light of physical abilities of the man of fifty.

Truck Payloads are Reduced 50 Per Cent

Reduction by 50 per cent of the pay, or freight-load, on all trucks travelling over Alberta highways became effective on Saturday last Aug. 1, and will continue until further notice, it was announced Friday by Hon. W. A. Fallow, minister of public works.

Engineers of the public works department will observe the effect of the reduced loads on the highways and if further reduction is necessary it will be ordered.

The order is applicable to all highways.

The enabling order-in-Council, said Mr. Fallow, states that on surfaced highways all trucks will have to possess a scale ticket showing the weight of the load being carried.

Under the order the maximum load permitted for the largest trucks will be 20,000 pounds.

The pulling of two-wheeled trailers behind the truck is prohibited under the new order.

"These regulations are being put into effect after the most careful consideration and to preserve our highways," said Mr. Fallow.

"Our engineers will observe the results of the 50 per cent decrease in payloads and if the highways show any signs of disintegration, then we will be compelled to further reduce the loads."

Mr. Fallow pointed out that owing to war priorities and necessities the volume of oil available for highway maintenance, was greatly reduced.

The Alberta Highway Traffic Board has been giving serious consideration to ways and means of preventing damage to the highways and the present order is the result.

Mr. Dan Purcell, accountant at the Bank of Montreal left last week with Mrs. Purcell for Medicine Hat, where they will spend their vacation with relatives.

Mr. M. C. O'Rourke, who has been on this C.N.R. run for some time is planning to take a run out of Winnipeg, and will move his family there shortly.

Last night (Tuesday), the local Elks lodge had a distinguished visitor in the person of D.D.G.E.R. Brown, of Viking. Initiation was the order of the evening.

Quite a number of local folks motored to the fair at Lloydminster, Vermilion and Vegreville. (And one of them walked a long way home after car trouble arose.)

SAVE YOUR SCRAP RUBBER

King's Printer Invents Money Saving Envelope

Mr. A. Shnitka, King's Printer has invented a "chain letter" envelope that is going to save the Alberta tax payers plenty of money on printing costs.

It is an inter-office envelope used for letters, messages and memo between one department and another at the parliament buildings and they in each department that have tried out the new wonder, state that it is really the "goods."

The envelope is about six by 10 ins. of stiff brown paper. On either side are 25 ruled spaces, which means each envelope may be used to times.

There are three columns, headed by name, department and branch, and using the envelope is simplicity itself.

The sender merely writes the name, department and branch to which the letter is destined in space No. 1. The receiver crosses out his own name and puts the name of the next department to which there is a reply or message in space 2.

Mr. Shnitka estimates that use of inter-departmental envelopes will reduce the number of envelopes used for this purpose each year from 30,000 to 600.

Some envelopes used by the government cost from 1 1/2 cents to two cents each, so it is easy to see how Mr. Shnitka's envelope will save money.

The Beasborough Hotel, Saskatoon will be the headquarters of the annual meeting of the Canadian Weekly Newspapers' Association on August 13, 14, and 15.

This magnificent Hotel, which is owned and operated by the Canadian National Railways, is situated in a spacious grounds overlooking the South Saskatchewan River, within a block of the business and shopping district. It has 200 rooms, each with a combination tub and shower bath, outside exposure and splendid view. The main dining room, the air-conditioned cafeteria and the tastefully furnished lounges and public rooms, all add to the comfort and convenience of this modern hotel.

Rumor Spreading Helps the Enemy

Calgary. — Rumors recurring throughout the country that aviation gasoline is being wasted at R.C.A.F. stations and schools have received emphatic denials from Headquarters of No. 4 Training Command, Calgary.

Officers at Air Force Headquarters Ottawa, recently stated, "It is the belief of these Headquarters that such rumors are deliberately and maliciously originated and then are further circulated by innocent and well meaning persons. That there is no vestige of truth in the matter has been proven to the satisfaction of the press on previous occasions."

One of the chief rumors is to the effect that, at air training schools retraining gasoline is not used on the completion of a flight or at the end of the day, is dumped out on the ground. This is not only false, but to the contrary, before an aircraft can be wheeled into its hangar, it must be filled with gasoline. This is done to avoid evaporation, to forestall any possibility that a plane might go aloft short of gas, and to check in case of a crash.

No member of the Air Force may drain the gas tank of a plane with out an order signed by the engineering officer. If the gas tank of an

airplane has been damaged and must be repaired, the gas drained from it is used only for motor transport, eliminating any danger that foreign material might be in airplane gasoline.

To salvage gas from a crashed aircraft it is drained into drums, filter oil and re-used in airplanes, if the tanks haven't been damaged.

Airmen have not the slightest chance in the world of obtaining gasoline for use in private motor cars. Court martial cases for infringement of this rule if they could possibly get away with the gas from the well-guarded hangars.

War nerves have played an important part in the battle to date and the malicious spreading of rumors is one weapon that the enemy finds cheap and effective. Citizens are urged to counteract such rumors and which facts are so easily available this does not prove difficult.

Following his annual holiday period, Supt. Baxter is back on the job at the power plant, and Ed Turner is away on his vacation.

The results of the school exams in grades IX and XII are now being received by the P.U.E. A full list of these will be published shortly.

Supplemental exams are to commence in town on Thursday of next week. Principal Meade will preside.

Tea & Coffee New Under Rationing

Announcement was made last week by the War Time Prices and Trade Board at Ottawa, that tea and coffee have now been placed on the "rationed" list, this being exactly one month after the same treatment had been given the "sugar bowl".

Bright and early on Monday morning last, therefore, it became necessary in the purchase of either tea or coffee to make use of the other end of the present sugar rationing card (those little pieces marked A.B.C.D. and E) upon the presentation of one of which it is now only possible to purchase one ounce of tea or four ounces of coffee from your grocer.

It must be distinctly understood that this amount of either tea OR coffee can be purchased—NOT BOTH and that one of the coupons must be surrendered for each purchase; although a purchaser may take the valuation of all the coupons at one time if so desired, and the amount so procured MUST last until the issue of the permanent rationing books which are to be issued on September 8th next, the same time as the books for sugar rations are looked for.

In announcing the extension of the rationing system to these two beverages the Board states "The tea and coffee rations are one ounce of tea per person per week or four ounces of coffee per person per week, and each one of the ration coupons entitles the person to whom the card has been issued that amount of either tea or coffee, but NOT both. Ration cards issued for children under 12 years of age can not be used for tea and coffee purchases."

The maximum quantity of tea which can be purchased on one ration card up to September 8 is five ounces or 5/16ths of a pound. Even three ration cards in a family will not permit the purchase of a one-pound pack.

Twenty ounces of coffee may be purchased on one card—a pound and a quarter.

Equitable distribution and conservation of existing supplies are the objectives of the tea and coffee rationing, and although it will mean a considerable sacrifice for a majority of Canadians, the Board expresses its confidence that the order will be rigidly adhered to owing to the serious needs of the shipping situation, by which means our supplies are obtained.

Of 185 men in the Sudeten settlement in Saskatchewan, more than 90 have enlisted in Canada's armed forces.

MAINTAIN ADVERTISING

Those who are looking toward the post-war future and those who check most closely upon returns from advertising are the most emphatic on the necessity for continuing advertising during the war. There is a tendency on the part of dealers in merchandise to reduce on advertising because of a diminishing range of goods on their shelves.

It is true that along certain lines they have no assurance of continuing supply nor assurance that their orders will be filled in proper time. But on the other hand, there are still large stocks in their stores to be disposed of, and they know that certain types of articles and materials will continue to come in.

They should keep these lines before the public. They should keep the name of their business firm continuously in the consciousness of customers, as a foundation for the day when stocks can be replenished, and long deferred needs can again be supplied.

The merchant can give great service in informing the public on what goods are still obtainable, what substitutions can be made, and the best ways in which normal needs can be filled with goods still available. By means of advertising he can furnish wise advice on thrifty buying, thus benefiting prospective customers and keeping his business legitimately before the public.

It is a question if merchandisers and their staffs have not reversed too strenuously the normal process of salesmanship. A good many seem to spend more time telling the customer what he cannot buy, than suggesting substitutes or directing attention to what is on hand. War conditions have imposed many restrictions which are disconcerting and confusing to the man in business, but if he intends to continue in business, he dare not neglect the medium of advertising.

He still has goods to sell. He still wants customers. He has certain lines of stock which he believes compare favorably in price and quality with those of his competitors. But unless he tells people through regular advertising space, how are they to know. On top of the government restrictions, he is deliberately restricting his own immediate chances of turnover, and permitting his business to lapse in a most essential phase. It is accepted that there must be a certain

Butterfat Subsidy Will Remain

Ottawa.—Payment of the six-cent a-pound subsidy on butterfat to primary producers will continue as long as it is considered necessary. Hon. J. G. Taggart, food administrator of the Wartime Prices and Trade Board, Tuesday told a Dominion-Provincial conference being held here to consider methods of increasing butter production.

Addressing one of the opening sessions of the two-day meeting, Mr. Taggart said that no date has been set for the termination of payment of the subsidy, which is aimed at giving the farmer a better return for his produce without increasing the retail price.

RAILWAY SALVAGE OVER QUARTER MILLION TONS

Montreal.—In the United Nations' campaign for scrap metal and other salvageable materials, the Canadian National Railways has assisted to the extent of more than 286,000 tons in 17 months. Salvage collected from the company's property included 197,935 tons of scrap steel and iron, 887 tons of scrap paper, 94 tons of rubber.

CZECH REFUGEES TURN TO FIGHT HITLERISM

Winnipeg.—Refugees from Hitlerism, three Sudeten youths who settled in western Canada in May, 1939, are on their way back to Europe to fight it. They travelled to Montreal on the C.N.R. Continental Limited to present themselves to Col. C. Hutnik of the Czech-Slovakian Military Mission for active service.

Two of the three are withheld because their parents are still living in occupied Europe. Two of them are brothers, one 22 and the other 25, and the third is a friend, 26. In Europe one of them had worked in a grocery store, one in a bicycle factory and the other in a glass factory. They had never been on the land but it was with eagerness that they took up homesteading in the Loon Lake district of Saskatchewan when they escaped from Europe three years ago. They could not forget what had happened in the homeland, however, and in June 1941 they joined the Canadian Army. In January of this year they applied for transfer to the Free Czech forces.

Wheat Pools Reduce Street Spread

The western Wheat Pools decided at an interprovincial conference, held in Calgary on July 16th and 17th, to reduce by 1/2¢ a bushel the spread in the handling of "street" wheat delivered to the Wheat Board through Pool Elevators for the ensuing crop year. This means that the "street" spread in Board wheat handled by the Pools will be eliminated and farmers who deliver on that basis will receive a 1/2¢ price and benefit by 1/2¢ a bushel as compared with last year's charges. The Wheat Board has been advised accordingly.

This decision was reached because of special conditions which are certain to prevail in the marketing of the 1942 wheat crop. The present arrangement with the Wheat Board provides that a producer must deliver 750 bushels in order to qualify for a 1/2¢ price. However, it is probable that the first quota will be five bushels to the acre and many farmers will not have a sufficient allotment to deliver 750 bushels, even although they may have substantial quantities of wheat in farm storage.

The Wheat Pools have taken the leadership in this matter just as they have in virtually every proposal to aid western agriculture in the past.

THE RAILWAY AND THE WAR . . . By Thurstan Topham

A great army of maintenance of way workers forms the backbone of railway operation. Their task is to keep track and bridges in proper condition—one of the vital essentials of the Railways' big war job.

The Sperry Car is the backbone of the railway's big war job. Its intricate mechanism spots hidden flaws which sometimes develop in high-speed track steel. CNR main lines which carry the swift and heavy war traffic are tested regularly by this marvel of modern railroading.

The land car is the track workers' gasless, rubberless jeep. The CNR has 2,245 of them. To cover The Queen's 3,053 track sections.

The 6,400 bridges of the National Railways System, if joined together, would span the water gap between Hamilton, Ont. and Kingston, Ont.—167 miles.

FARM NOTES

CONSERVATION OF FARM MACHINERY RUBBER

There will be no new farm equipment supplied on rubber tires for the duration of the war. Every farmer will have to make his present rubber equipment last until the war is over or he will be without the advantages or use of these machines at a time when they are especially necessary for increased production, reduced costs and to offset the labour shortage, says G. N. Denike, Dominion Experimental Station, Swift Current, Sask.

Practically all rubber tires on farm machinery can be made to give better service and longer life than normal if the following points are carefully noted:

1. Rubber is a perishable product and subject to damage by heat, freezing and thawing, direct sunlight and wet. Keep rubber tires under cover as much as possible when not in actual use, preferably in a cool, dry and darkened shed.

2. Rubber will age in time but its life can be prolonged by proper use when active, and proper protection when inactive.

3. All rubber tires, except the solid type, depend upon correct air pressure for their strength to carry the load and for their long wearing qualities. Check each tire for correct pressure at least twice every week when in use.

4. Low air pressure causes cracking of the side walls and breaks in the fabric. Keep tires slightly above

the average recommended pressure for longest wear and trouble free life.

5. Check the alignment of all wheels with rubber tires at frequent intervals. Any wheel which is out of true or improperly balanced causes excessive wear on that tire.

6. Never overload or overspeed rubber tires.

7. Use the proper amount of wheel weights on drive wheel tires.

Information on wheel weights and how to make them is available from the Dominion Experimental Station, Swift Current, Sask.

8. Adjust the line of draft on each implement to reduce tire wear and secure best draft results.

A low hitch on the tractor may cause excess wear on the drive wheels and an extra load on the implement tires.

9. Remove tires from implements which must stand outdoors for most of the year when not in actual use, and store in dry, cool, darkened shed.

Reduce the air pressure a few pounds in all tires which are in storage.

10. A good coat of recommended rubber tire paint or preservative will protect all tires, outside or in storage against the deteriorating effects of weather and aging.

Do everything possible to save what you have now. Repair breaks or damage as soon as possible and never throw away any rubber, even when completely worn out, it is now too valuable to be wasted.

LABOUR FOR THRASHING

Every sign points to an unusually heavy crop this year in the Prairie Provinces. Many young men have left the farms to join the Armed Forces; countless younger and older men, girls and young women have left to answer the call to work in munition industries. There will, quite evidently therefore, be a shortage of labour to harvest and to thresh this coming crop.

As in similar years in the past there are, however, certain things which can be done. High school boys can be given leave from school, and soldiers from the farms now in training can be given temporary leave from their units to help harvest the crop.

Business and professional men in country towns and villages will also be able to assist. Farm neighbors too, will, of course, help each other. Above all however, it seems that the Government should make use of the large quantity of skilled American labor which will soon be available because of the earlier harvest in the U.S.A. Northwest. The Canadian and U.S.A. Governments merely need to make simple regulations permitting these men to cross the international boundary easily and freely.

This can be done, and it certainly should be done, to help bring in our harvest which will form a most important munition of war.

Following factors have tended to decrease supply or increase demand:

—The food situation in Occupied Countries of Europe continues poor—Spain has concluded an agreement to take 37 million bushels of Argentine grain—The advance of the German armies in the rich Caucasian region impels about 25 p.c. of Russia's winter wheat acreage.

Following factors have tended to increase supply or decrease demand:

—Canadian and U.S.A. crop prospects are the best in many years—Great Britain plans to increase wheat acreage by 600,000 acres next year—Argentina supplies of wheat for export on July 25th were 198 million bushels compared with 114 million bushels last year.

HEALTH

VARIETY IN VEGETABLES

Harvest season brings a rich profusion of vegetables, but whatever the season, Canadian markets are filled with an excellent variety of vegetables. Eat them every day cooked and raw, two or more kinds daily. Learn to eat new kinds, cooked in new ways.

Why Different Kinds

First on the list—dark green leaves as kale, chard, spinach, beet and turnip tops, dandelion and mustard greens—rich in iron and vitamins.

Lighter green leaves—as lettuce & cabbage eaten raw—crisp and fresh—good for vitamin C.

Yellow vegetables—as squash, sweet potatoes, yams, carrots and pumpkin—fine for vitamin A.

Dried peas, beans, lentils—don't forget that they contain protein and can be substituted for meat once or twice a week.

Other vegetables—as green beans, green peas, lima beans, onion and celery—give you less minerals and vitamins but are good for you and are a change.

How to Buy Vegetables

Buy vegetables in season—they are cheaper and fresher.

Choose bright, firm, well formed vegetables.

Buy beans with fresh green tops thus having two vegetables for the price of one.

Buy by the pound rather than by the bunch, as carrots and broccoli; it is less expensive.

Vegetables with little waste, as string beans and spinach, are cheaper than green peas or lima beans even though they may cost a few cents more a pound.

How to Cook Them

Wash thoroughly particularly leafy varieties, but do not soak in water for this removes some of the vitamin and mineral content.

Cook in the smallest possible amount of boiling salted water. Leafy vegetables usually have enough water clinging to them from the washing; for others about one-half inch in the bottom of the kettle is enough.

Vegetables are better undercooked than overcooked. Most people overcook. When you get used to undercooked ones you'll prefer them.

Wherever possible, cook vegetables in their skins; skin protects the mineral and vitamins.

Never add soda to vegetables; it destroys vitamins.

FRESH CRISP CUT VEGETABLES

Salads lend themselves so readily to decorative effects that for many years they had no more important part in diet than just that. But now, besides being highly decorative they are regarded by nutritionists as vital to the well-balanced diet. Rich in minerals and vitamins, the mixed salad or lettuce alone is becoming a staple food.

Lettuce Alone is Salad
Epicures prefer lettuce salad mixed in a wooden bowl with wooden fork and spoon. Housewives prefer them because they are so easy to prepare. After following directions once or twice, anyone can make an excellent salad, and make it of just a few odds and ends but always beginning with fresh, crisp lettuce, either leaf or head.

Here's How
Into the salad bowl put salt, pepper and paprika in quantities your judgment suggests and your taste confirms. (Use extra salt (iodized) in summer to help prevent ill effects by heat.) Add three tablespoons of vinegar, preferably tarragon, and 6 or 8 tablespoons of salad oil. Mix thoroughly, adding a bit of peeled

garlic if you want to be seriously regarded as a salad maker, then chop celery, especially the green leaves; chervil; water cress, grated carrot, or raw cauliflower. Grated cheese, well seasoned or definitely aged adds zest. Then the lettuce, a whole head leafed out. Stir up thoroughly and serve in generous portions with crackers or thin well-buttered real whole wheat bread.

Rabbits Don't Mind
Rabbits may enjoy wilted lettuce, humans, especially youngsters don't. There'd be few salad-refusers if the vegetables, fruit and lettuce were always appetizingly fresh and crisp.

Every Day is Salad Day
There is a salad for every day in the year and it is important to develop your taste for them because of threatened shortages of canned goods.

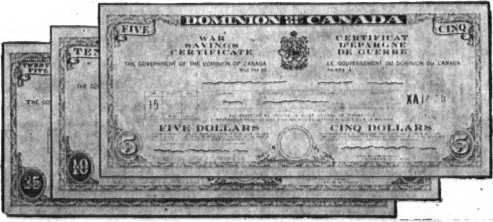

A postal card to the Health League of Canada, 111 Avenue Road, Toronto, Ont., will bring you a free vitamin chart for ready reference, and a book let "Salads that are Different."

DISTRICT DISTRIBUTORS FOR

Dodge and DeSoto Cars

EDGERTON

Roy Evans was home on week end leave.

Les Darby and family are holidaying at Clear Lake.

Mrs. Montgomery returned home with her infant son last week.

Mrs. Venables and family of Saskatoon are visiting with Ralph Challenger.

Quite a number of town folk took in the Lloydminster Exhibition last week.

Charles Davidson and his wife paid a short visit here last week. Charles has joined the R.C.A.F.

The trucks have been very busy getting the last of the old wheat in before August the 1st.

The Victory Wheel Draw at the Picture Show resulted in No. 17 Mike Treflak being the winner.

Lily Pon left on Saturday for Edmonton where she is going into training in one of the hospitals there.

We are very pleased to report Kenneth Challenger is home again after being in hospital for over eighteen months.

Ernestine Wallis left Friday for her vacation. Joyce McDonald is helping at the Red and White Store in her place.

Mrs. Bob McKay had the misfortune to break her arm at Clear Lake last Sunday and has been at Provost for medical aid.

We notice the oil prospectors are busy in the district and it is to be hoped they will be lucky as it is badly needed these days.

We are sorry to learn Mildred Goode is leaving and we understand she is going to attend normal. The ladies will all miss her.

The flow of scrap iron has slowed up but it is hoped that any more which may be around will be brought in before the busy harvest season commences.

A postal request to the Health League of Canada, 111 Avenue Road, Toronto, Ont., will bring you a free vitamin chart and a booklet "Canadian Vegetables for Every Day."

Each year the C.N.R. alone uses 855 tons of brass and 3,413 tons of iron and steel in its own foundries, and 6,224 tons of scrap brass and 78,031 tons of scrap wheels were salvaged and returned to mills in exchange for other materials.

MAYFIELD

In a letter received by Mrs. Fred Watts from overseas, Mr. Harold Karr, formerly of this district writes that he and Harry French of Wainwright spent their army leave visiting Mr. and Mrs. W. Daugherty and family, well known past residents of the town of Wainwright on the Isle of Man. The Daugherty family live in a stone house on a farm that raises Clydesdale horses and pure bred short horn cattle. They also raise the tailless Manx Cats. Harold was given one of these cats to bring back to his outfit as a mascot. We understand that Harold has been receiving the Star, so if you see this Harold, greetings to you and Harry from your friends in Mayfield and Wainwright.

HEATH

Stanley Davis has gone to Calgary for medical advice.

Dorothy Spornitz is leaving for Edmonton this week to take a business course.

Visitors to Vermilion Fair last week were Percy Smith, Mrs. Clinton Davis, and Gladys Spornitz.

Mr. and Mrs. Bruce Almost have returned to Scholard after spending a week at the Turnbull home.

Frank O'Rourke a school chum of Marcelle Touchette who is in the tank corps at Camp Borden is a visitor at the Touchette home.

Mr. and Mrs. Bert Williamson of Leduc and Mr. and Mrs. Bill L'Heureux of Fabian, Mrs. Messier of Wainwright were Sunday visitors at the home of Mr. and Mrs. Leo, Messier.

Sheepskin Flats

Mr. Vern Templeton is busy just now getting his house stuccoed.

While playing in the yard the little nine year old charge of Mrs. Houski got a nasty kick from a horse. He was in the hospital for a few days but is now back home on the farm.

Some members of the district visited the Lloydminster fair at the beginning of last week while others visited the same fair at Vermilion. All reporting as having had a good time.

A picnic was held at the river on Sunday in honor of Mrs. P. Tondou of Vancouver who is visiting relatives in the district. Mrs. Tondou will be well remembered as Miss Mildred Wallace.

AMONG THE OLD TIMERS**REMINDERS OF OTHER DAYS****FIFTEEN YEARS AGO**

Before leaving to visit the Old Country Mrs. Whittle was the guest of honor at several afternoon teas given by Mrs. J. Clapton, Mrs. Brace and Mrs. J. Ward.

Several carloads of local Odd Fellows, Bro. R. Dunsmore, P.G. and his degree staff, journeyed to Chauvin to confer the degree in the lodge there.

Rev. and Mrs. Love are away for a couple of weeks holiday with relatives in Saskatoon.

Mr. R. Durrant arrived this week from Outlook, Sask., and is now in charge as manager of the Manning, Sutherland Lumber yards in town.

Mrs. Wm. Stuart and Children are away on a visit to relatives at Oids, Alta., and we understand Bill does not enjoy "bathing".

TEN YEARS AGO

Mrs. Albert Hughes who will teach Mayfield school this year is building a house in the school yard.

Mr. E. Gehring has been taken on as the new member of the staff at

the Alma Meat Market.

Miss M. Prosser one of our popular local nurses accompanied by her brother Wallace Jr., left on Monday train for points in Ontario where they plan to remain a month.

Mrs. P. Napier and daughter who have been on an extended trip to Scotland arrived home Friday evening July 29 and their many friends here are glad to welcome them back.

The Masonic picnic held at Clear Lake last Wednesday proved to be a huge success.

GREENSHIELDS

LAC, L. and Mrs. Carl are home for a visit from the west coast.

Mrs. Hill and Mrs. Pfleger were visitors in the city last week.

Miss Ruth Marshall from Edmonton is visiting at the Walter Jacks, sons.

Last week saw Mr. W. B. White installed as the new postmaster at Greenshields.

Mr. Rudolph Lidberg spent a few days with his sister Mrs. White before returning to the coast.

The Women of the War Service League finished two quilts during the past week. Mrs. Tibury and Mrs. R. Carl were hostesses.

Mrs. Haire and daughter Germaine also Miss Joan Brady, returned to Edmonton Monday morning and Mrs. R. G. Morrison left for Prince Rupert on the same train.

**EFFECTIVE NOW****TEA AND COFFEE**

are rationed by coupon

The ration is one ounce of tea or four ounces of coffee per person, per week

Coupons A, B, C, D, and E, on the Temporary War Ration Card, now in the hands of the public, are to be used, and are NOW valid for the purchase of tea and coffee.

Each coupon will entitle the purchaser to one ounce of tea or four ounces of coffee - a supply for one week.

If desired, purchasers may use any or all of these five coupons simultaneously, and buy up to 5 weeks supply at one time, on the surrender of the appropriate number of coupons.

Numbered coupons are good only for the purchase of sugar and may not be used to buy tea or coffee. Similarly, lettered coupons may not be used to buy sugar.

COFFEE CONCENTRATES AND SUBSTITUTES CONTAINING COFFEE

One coupon must be surrendered for each quantity of coffee concentrate or substitute containing coffee, sufficient to make 12 cups of beverage.

TEA BAGS REQUIRE COUPONS

When purchasing tea bags, the following coupon values shall be used:
2 coupons for a carton of 18 or 20 tea bags
4 coupons for a carton of 40 or 45 tea bags
8 coupons for a carton of 80 tea bags

CHILDREN UNDER 12 YEARS OF AGE ARE NOT ELIGIBLE TO RECEIVE ANY RATION OF TEA OR COFFEE.

SPECIAL NOTICE TO RETAILERS

On and after August 3rd, retailers must establish their right to purchase new supplies of tea or coffee from their suppliers by turning over to the supplier currently valid ration coupons, equivalent to the poundage of tea or coffee ordered from the supplier

NEWS & VIEWS OF TOWN AND DISTRICT

The hospital has been a busy place this week with tonsil clinics being held each morning.

Miss Jeanette Croteau, who holds a position as stenographer at Legal, Alta., was visiting her parents here for a couple of weeks.

Cattle shipped last week through the Alberta Livestock Co-op, realized excellent prices, and all hogs are selling at a premium. The recommendation is that all right-weight cows and fat steers should be marketed as soon as possible. See your agent at Wainwright, Heath or Edgerton.

Miss Eileen Forster left last week end for her new position in Calgary.

Miss R. Valieu is now installed in her new position at the Patterson store vice Miss D. Forster who is planning to take a position at the coast.

It is pleasing to record that Mrs. Ed. Turner is now up and around again following her recent illness.

By action of the Provincial Highway Board it is proposed to cut the mileage of the several bus lines in Alberta by 75 per cent. It is probable, too, that the Wainwright-Edmonton bus will be running only six days a week (thus eliminating Sunday runs) after the end of this month.

Miss V. Voros is spending a couple of weeks at her parental home by way of a summer vacation.

Mr. C. Reynolds left on Sunday for the Manning depot (R.C.A.F.) in Edmonton, where he will commence his military training.

Mr. and Mrs. L. Baxter were trippers to the city over the week end.

Gregor McCluskey was down from his training quarters to visit friends last week end.

We are indeed glad to learn that Mrs. E. Heffernan is now improving nicely after her recent sick spell.

For a couple of weeks holiday, Mrs. J. Pawling is paying a visit to her son Fred and family in Winnipeg these days.

Mr. Phil Pon was a business tripper to the city last week for a couple of days.

Mr. and Mrs. G. Siddall, of Hanna (formerly of town), spent last week end at their cottage at Clear Lake.

COMING EVENTS

The R. C. Church members of the district will hold their annual big picnic at King's Park, Fabyan, on Wednesday Aug. 12th. Bingo games, Grand Chicken Supper (35c each), Dance at Fabyan schoolhouse in evening. (35c each) Come and have a good time with your friends.

FOR SALE

Nicholas Shepard Rod River Separator; 28-in.; Armo Steel almost new drive belt and full equipment of belts and screens; will sell for \$420.00 cash. Can be seen at Dave McClellan's farm 14 miles N.E. of Wainwright.

Miss M. Ganderton was visiting the Mitchell family at Edgerton for a short holiday.

Mrs. I. Horey returned to her home at the coast last week end, after a holiday with her parents here.

Mrs. J. A. Mackenzie and children are spending a holiday at Clear Lake. They are in the Lilly cottage there and have the E. Heffernan children with them.

Mr. and Mrs. T. Lismore left for a holiday at Victoria last week, and will visit with the Clouston family there.

SAVE YOUR SCRAP RUBBER

Mr. and Mrs. Paul Kaufman, and baby daughter, arrived from Snoqualmie Falls, Wash., U.S., for a short holiday with Mr. & Mrs. W. Brunker.

Following a holiday with her parents here, Miss M. Lane returned to the city last week end.

Leroy Carl left on Friday to commence his training period for army duties.

At the meeting of the public school Board held on Monday evening last, the staff appointment for the coming term were made by the Board. A list of the teaching staff will appear next week.

"There is an old proverbial saying that 'The sole is half the soul.' This is implicitly true, for who does not feel his natural self when well-shod with shoes that are repaired by skilful craftsmen with fine-grade leather essential for long service and comfort? For that added essentially take your shoes to the O.K. Shoe Repair, Main Street. The price, too, will be found pleasing."

Having spent a furlough with his parents here, Vic, Devignon, R.C.A.F., has returned to duty.

A worth-while salvage effort was accomplished last week when little Billy Ott and three other youngsters of the same age (8 years) of Irma gathered some 900 lbs. of scrap metal for the war effort. Good work, fellows!

Mrs. H. C. Wallace, accompanied by Miss R. Forster and her son Lt. Doug. Wallace, spent a couple of days in Edmonton last week end.

Messrs Taylor Bros. of Fabyan, are solving the labor shortage problem by taking out a new harvester combine from the Guy Tory warehouse.

The Federal parliament adjourned late last week end to re-assemble on January 27th next unless sooner called for business. The Canadian Senate will re-convene at the same time.

Dr. Alex Ratray was home from the city for a couple of days with his parents here.

Billy Fish of the R.C.A.F. is home on furlough for a couple of weeks.

Druggist Earl Lane is enjoying a holiday with friends at the coast, with her journeyed last Sunday.

Mr. and Mrs. Jack Davison are away for a vacation for a week or so.

Miss I. Perkins was down for a visit with her parents and returned to the city on Monday night.

Mr. Frank Fish came down from Edmonton to spend a couple of days with his family last week end.

After a period of 2 1/2 years spent with his battalion in England, Sgt. Snyder, R.C.A., is here this week with his wife and baby. Risk is to take an officers' training course in Canada before returning overseas.

Mr. G. Kenny of the school division is enjoying a holiday period this week.

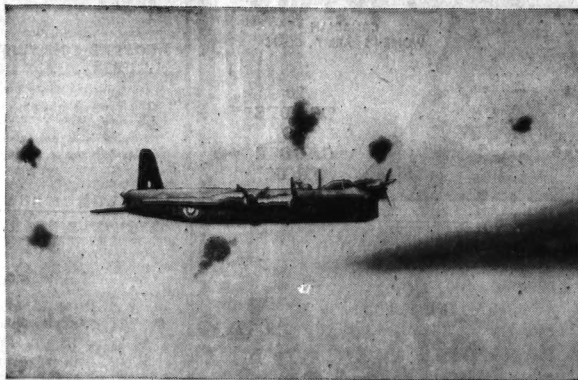

Mrs. W. T. Brunker is spending a few days at her cottage at the Lake with her daughter Glenna.

R.C.A.F. Bomber Finds Target Through Cloud of Flak

As a flight of bombers sailed over enemy territory on its way to the target of the day, a gunner poked his camera over the side and made this photograph of a Stirling bomber surrounded by anti-aircraft gunbursts. On every mass bombing raid

over Hamburg, Essen and all the other huge Nazi munitions centres—fighting fliers of the R.C.A.F. do their share in the work of crippling the enemy's munitions industry. Any one of those chunks of flak in the above photo could have meant tragedy to

the courageous Canadian crew, but it is a matter of record that they went on to the target, dropped the bomb load and returned safely to their base.
